

Job Title:	Healthcare Provider
Reports to:	Healthcare Director
Schedule:	One-week sessions available between June 15 – July 18, Sunday-Friday
Compensation:	Volunteer. Includes all meals, room and board (if requested), and referral bonuses
Qualifications:	Must be a current licensed physician or physician's assistant in the State of Ohio. Must have experience in first aid and emergency management, experience in both children and adult illness/injury care, and a desire to work with children and adolescents. Extensive experience with type 1 diabetes is required.

Job summary:

Are you passionate about making a difference in the lives of children? Join our dedicated team as a Healthcare Provider and help create an unforgettable summer for kids living with Type 1 diabetes. You'll provide essential medical support while fostering a safe, nurturing, and fun environment where campers can thrive. Often, camp is the only place a child feels safe and that they belong. You can provide that to a child and send them home with confidence, independence, and happiness. Your care and compassion will leave a lasting impact on these incredible kids, empowering them to embrace their uniqueness and build lifelong memories.

Having a Healthcare Provider each week is essential to our operations at camp. They are there to provide medical expertise, critical treatment, make sound judgement calls, and write prescriptions if needed. However, their most important function is getting to know the campers, educating them about diabetes management, and having meaningful conversations with them about making changes to their insulin dosages while they are at camp.

We value flexibility and a collaborative spirit. While each role at Camp comes with primary responsibilities, there will be occasions when you'll be called upon to assist in other areas as needed. We believe in a 'can-do' attitude and appreciate staff members who are open to taking on new challenges. This approach helps us all grow and succeed together.

Make this summer one of growth, connection, and joy. Apply now and become part of a team that's changing lives, one camper at a time.

Duties and responsibilities:

- Be an active part of the medical team to ensure the health and safety of all campers and staff.
- Manage and oversee all residents and fellows.
- Make appropriate changes to campers' insulin dosages each day while they are at camp.

- Assist with all diabetes management tasks such as checking glucose, administering hypoglycemia and hyperglycemia treatment, preparing and administering insulin doses, conducting pump-site changes, and other duties as assigned.
- Promptly respond to, treat, and/or assist with camper and staff medical concerns or health emergencies including accidents, high and low blood glucose, illness, etc.
- Document accurate medical interventions in the EMR.
- Write prescriptions for medications as needed.
- Assess campers and staff and administer medications per physician orders.
- Provide education to campers and staff about treatment, care, and management of type 1 diabetes.
- Offer emotional and psychological support to campers to help them feel comfortable, confident, and empowered in managing their type 1 diabetes.
- Follow all protocols outlined in the medical manual.
- Attend pre-season medical training.

Physical Aspects of the Job:

- Ability to walk through gravel and camp-like terrain.
- Ability to read and follow directions on medication labels, health forms, physician orders, and parent letters.
- Ability to communicate with parents, staff, and administration about camper health concerns.
- Possess endurance to meet emergency needs.
