

Job Title:	Healthcare Resident/Fellow
Reports to:	Healthcare Provider, Healthcare Director
Schedule:	One-week sessions available between June 14 – July 17, Sunday-Friday
Compensation:	Volunteer; all meals provided and room and board (if requested)
Qualifications:	Must be currently enrolled in a resident or fellowship program. Must have experience in first aid and emergency management, experience in both children and adult illness/injury care, and a desire to work with children and adolescents. Experience with type 1 diabetes is preferred but not required.

Job summary:

Are you passionate about making a difference in the lives of children? Join our dedicated team as a Resident or Fellow and help create an unforgettable summer for kids living with type 1 diabetes. You'll provide essential medical support while fostering a safe, nurturing, and fun environment where campers can thrive. Often, camp is the only place a child feels safe and that they belong. You can provide that to a child and send them home with confidence, independence, and happiness. Your care and compassion will leave a lasting impact on these incredible kids, empowering them to embrace their uniqueness and build lifelong memories.

Residents and Fellows are truly amazing to have at Camp Ho Mita Koda. They bring such valuable knowledge and skills and are able to be the right-hand support to our Healthcare Providers. As a team, they assist with rounding and making changes to insulin dosages for each camper every day. Additionally, they help in the field, in the clinic, and assist during the insulin bolusing process before and after meals. It is a great way to gain experience, network, and to show that you're invested in caring for your community!

We value flexibility and a collaborative spirit. While each role at Camp comes with primary responsibilities, there will be occasions when you'll be called upon to assist in other areas as needed. We believe in a 'can-do' attitude and appreciate staff members who are open to taking on new challenges. This approach helps us all grow and succeed together.

Make this summer one of growth, connection, and joy. Apply now and become part of a team that's changing lives, one camper at a time.

Duties and responsibilities:

- Be an active part of the medical team to ensure the health and safety of all campers and staff.
- Assist the Healthcare Provider with rounding and changing insulin dosages for each camper every day.
- Assist with all diabetes management tasks such as checking glucose, administering hypoglycemia and hyperglycemia treatment, preparing and administering insulin doses, conducting pump-site changes, and other duties as assigned.
- Promptly respond to, treat, and/or assist with camper and staff medical concerns or health emergencies including accidents, high and low blood glucose, illness, etc.

- Document accurate medical interventions in the EMR.
- Assist Healthcare Clinic Manager with administering prescription home medications as directed.
- Provide education to campers and staff about treatment, care, and management of type 1 diabetes.
- Offer emotional and psychological support to campers to help them feel comfortable, confident, and empowered in managing their type 1 diabetes.
- Participate in camp activities to enhance camper experience and provide medical support as needed.
- Follow all protocols outlined in the medical manual.
- All other duties assigned by the Healthcare Director, Medical Director, or Camp Director.

Physical Aspects of the Job:

- Ability to walk through gravel and camp-like terrain.
- Ability to read and follow directions on medication labels, health forms, physician orders, and parent letters.
- Ability to communicate with parents, staff, and administration about camper health concerns.
- Possess endurance to meet emergency needs.

If you are interested in joining the medical team this summer, please apply online at
